- Selected by GDUSA for a [profile feature](#) recognizing emerging talent among design students nationwide

✍ Work Experience

Marketing Designer

_general population | Brooklyn, NY · July 2025 - present

- Designed and developed responsive websites and web pages, translating UX/UI concepts into functional, high-quality digital experiences.
- Identified opportunities to improve client-facing digital products and refined user flows, interaction patterns, and usability.
- Created brand-aligned visual and motion assets—including storyboards, logos, animations, and typographic systems—to support integrated marketing campaigns.
- Contributed to creative development by presenting concepts, researching trends, and introducing innovative design techniques to elevate project outcomes.
- Maintained organized design and development files while supporting project management tasks through clear communication and participation in internal and client meetings.

Social Media Graphic Designer

Devsisters USA | San Mateo, CA (remote) · 2022 - 2023, December 2025 - June 2026

- Created engaging visual content (social media collateral and illustrations) for *CookieRun: Kingdom*, *CookieRun: OvenBreak*, and *CookieRun: Ovensmash* used across social media platforms. Adhered to brand guidelines and platform-specific requirements.
- Led creative direction and developed art and motion assets for marketing campaigns; illustrated and animated characters in new, fun poses that align with in-game styles.
- Collaborated with marketing, creative, and business development teams to align content with campaign and product goals; presented key design strategies to internal stakeholders.
- Designed global campaign visuals that drove a 10% increase in engagement and 700+ new followers across X and Instagram in 12 hours, with over 4M impressions.

Marketing & Growth Designer

Hungryroot | New York City · March 2023 - June 2023

- Created social media assets for platforms such as Pinterest, Instagram, and the company blog, ensuring alignment with established brand guidelines for consistency.
- Designed high-fidelity in-app ad placements in Figma, adhering to Hungryroot's design system.
- Contributed to UI design for landing pages, optimizing layouts and visuals to drive SEO-based user acquisition and enhance engagement.

Designer (Visual, UX, Web) & Developer

Freelance | 2014 - present

- Contributed to front-end website development using CSS and JavaScript, working closely with clients to bring their ideas to life via responsive layouts (mobile and web) and interactive elements.
- Designed digital assets for startups, studios, independent creators, and businesses such as Foxe Games, Zima, Bersantai Resort, and Kopiteria, helping define and elevate their online presence.
- Created digital assets, social media kits, and marketing visuals for clients using Adobe Creative Suite and Canva.
